B.Ed. program courses taught in a college during the academic year 2022-2023 along with details of the modes of teaching-learning adopted.

Courses: perceptive in education

Mode of teaching learning: interactive lecture, group discussion, case studies, oral presentation.

Description: -

The course introduces students of education philosophical, sociological and psychological foundations, interactive lectures provide theoretical insights, followed by group discussion to encourage critical thinking and application of concepts. Case studies and presentations engage students in real-world examples.

Course: Curriculum and pedagogy studies

Modes of teaching learning: classroom teaching, experimental learning, use of models and charts and exercises.

Description: -

Adopting classroom approach, students prepare content before class and engage in discussions, case studies and exercise during the course to apply theories to real life situation. Experimental learning activities, such as historical site visits, enhance their understanding of effective social sciences teaching methods.

Course: engagement with field

Mode of teaching learning: Full time placement in schools, mentored teaching, reflective reports

Description: -

Students undergo a full-time placement in schools, where they engage in mentored teaching. They compile reflective reports, documenting their teaching experiences and showcasing their growth throughout the internship.

The above examples highlight the diverse teaching-learning modes employed within the B.Ed. program during the academic year 2022-2023 aligning with NCTE approved and affiliated standards to provide students with a well-rounded and comprehensive educational experience.
