There is revolution in e-education.There isfreeaccesstotheacademic,researchinformation.Numerouse-portalsaretherewhichprovidefreeaccesstonumerousresources.

1. **E-JOURNALS**
   E-journals, also known as electronic journals, are digital versions of traditional print journals tha are published online. They provide academic or scholarly articles, research papers, and others cholarly content in various disciplines. These e-journals are accessible through multiple portals or platforms, such as university libraries, research databases, and publisher websites. Unlike print journals, e-journals are often available for free and offer open access, meaning anyone withinternet access can read and download their content without needing a subscription or paying anyfees.This accessibility is made possible due to the advancements in information and communication technology(ICT),ensuring the timely and frequent updates of e-journals.

2. **E-SHODHSINDHU**
   The E-Shod Sindhuprojectisan initiative undertaken by the Ministry ofHuman Resource Development (MHRD), Government of India, with the aim of providing researchers and students with access to a wide range of scholarly articles, journals, and other research materials. It is an online portal that provides seamless access to e-resources available to academic institutions in the country.

   E-Shod Sindhu aims to bridge the gap between researchers and knowledge sources by providing access to online journals, databases, and other digital content. It enables users to search for and access scholarly articles and research papers easily, without any geographical restrictions. The project covers various disciplines, including science, technology, social sciences, humanities, and management.

   Through E-Shod Sindhu, students and researchers can access a vast pool of resources, includingfull-text articles, digital books, and research papers. This helps them in their academic pursuits,facilitatesresearch,andenhancesthequalityoftheirwork.Theprojectalsopromotescollaboration among researchers by providing a common platform where they can share andaccess information.

   The E-Shod Sindhu project has been a significant step towards improving the quality of researchand education in India. It has provided researchers with access to a vast amount of knowledge andhas reduced their dependency on physical libraries. Moreover, it has also led to cost savings for academic institutions, as they no longer need to purchase expensive print versions of journals and can accessthemdigitally.

Overall, E-Shod Sindhu has propelled India's research and academic community into the digitalage, connecting them to a vast network of online resources. It has revolutionized the way researchis conducted and has contributed significantly to the growth of knowledge and innovation in thecountry.

3. **SHODHGANGA**

Shodhganga is a web-based repository that serves as a platform for researchers in India to deposittheirPh.D. thesesand make them accessible to the public.Itwasinitiated by the UniversityGrants Commission (UGC) of India with the objective of creating a comprehensive database ofscholarly work in various disciplines. Shodhganga not only enables researchers to preserve and show case their research findings butal so promotes open access to scholarly literature.There pository accepts electronic theses from universities across India and provides easysearchandretrievaloptionsforusers.Shodhgangahasbecomeavaluableresourceforacademiccommunities,students,andthegeneralpubliclookingforresearchmaterial.

4. **E-BOOKS**

E-books, short for electronic books, are digital versions of printed books that can be read on electronic devices such as smartphones, tablets, e-readers, or personal computers. They offer the convenience of accessing a vast library of books in a portable and compact format. E-books often come with features like adjustable font sizes, bookmarks, highlighting, and search functions that enhance the reading experience. They can be purchased and downloaded online, making them instantly accessible. The popularity of e-books has surged in recent years, as they provide an affordable and environmentally friendly alternative to physical books, allowing readers to carry entire libraries in the irpockets. The college has subscribed to E-journals like CORE, Science Open, Directory of Open Access Journals for Library, Social Sciences Research Network, Public Library of Science, Open DOAR, CIA World Fact Book, Paperity, EcoBiz andEthos.

5. **DATABASES**

Databases are structured collections of organized data that can be stored, managed, and accessed electronically. They are designed to efficiently handle large amounts of information, allowing users to store and retrieve data easily. Databases provide a way to store different types of data,such as text,numbers,images,and videos,and connectrelated information inastructuredmanner. They offer features like data synchronization, security controls, and data integrity toensure accurate andconsistentdatastorage.With databases,businesses and individuals can centralize their information, improve data management,and enable faster and more accurate decision-making.

E-ShodhSindhu,Shodhganga,E-Books,Databaseshavenumerousportalsandnumerouse-resourcesare available with no subscription, no expenses and varied information and easily available at 24×7services.

E-Resources for knowledge changed the definition of library.Colleg library is not a place with restricted books and journals. College library becomes a highway of knowledge. It can be access immediately and at no cost.

No need of separate landing page of the remote access. College library became Global Library. It is because of revolutionary internet. Anyone can access the knowledge information by sitting at any corner of location. It costs nothing, no subscriptions to be paid to any agencies'always respect the new technology and advance e-education. Remote access for knowledge treasury of Global Library is free, no restriction of membership,no limits for login and logout.
